## TAKE THE QUIZ!

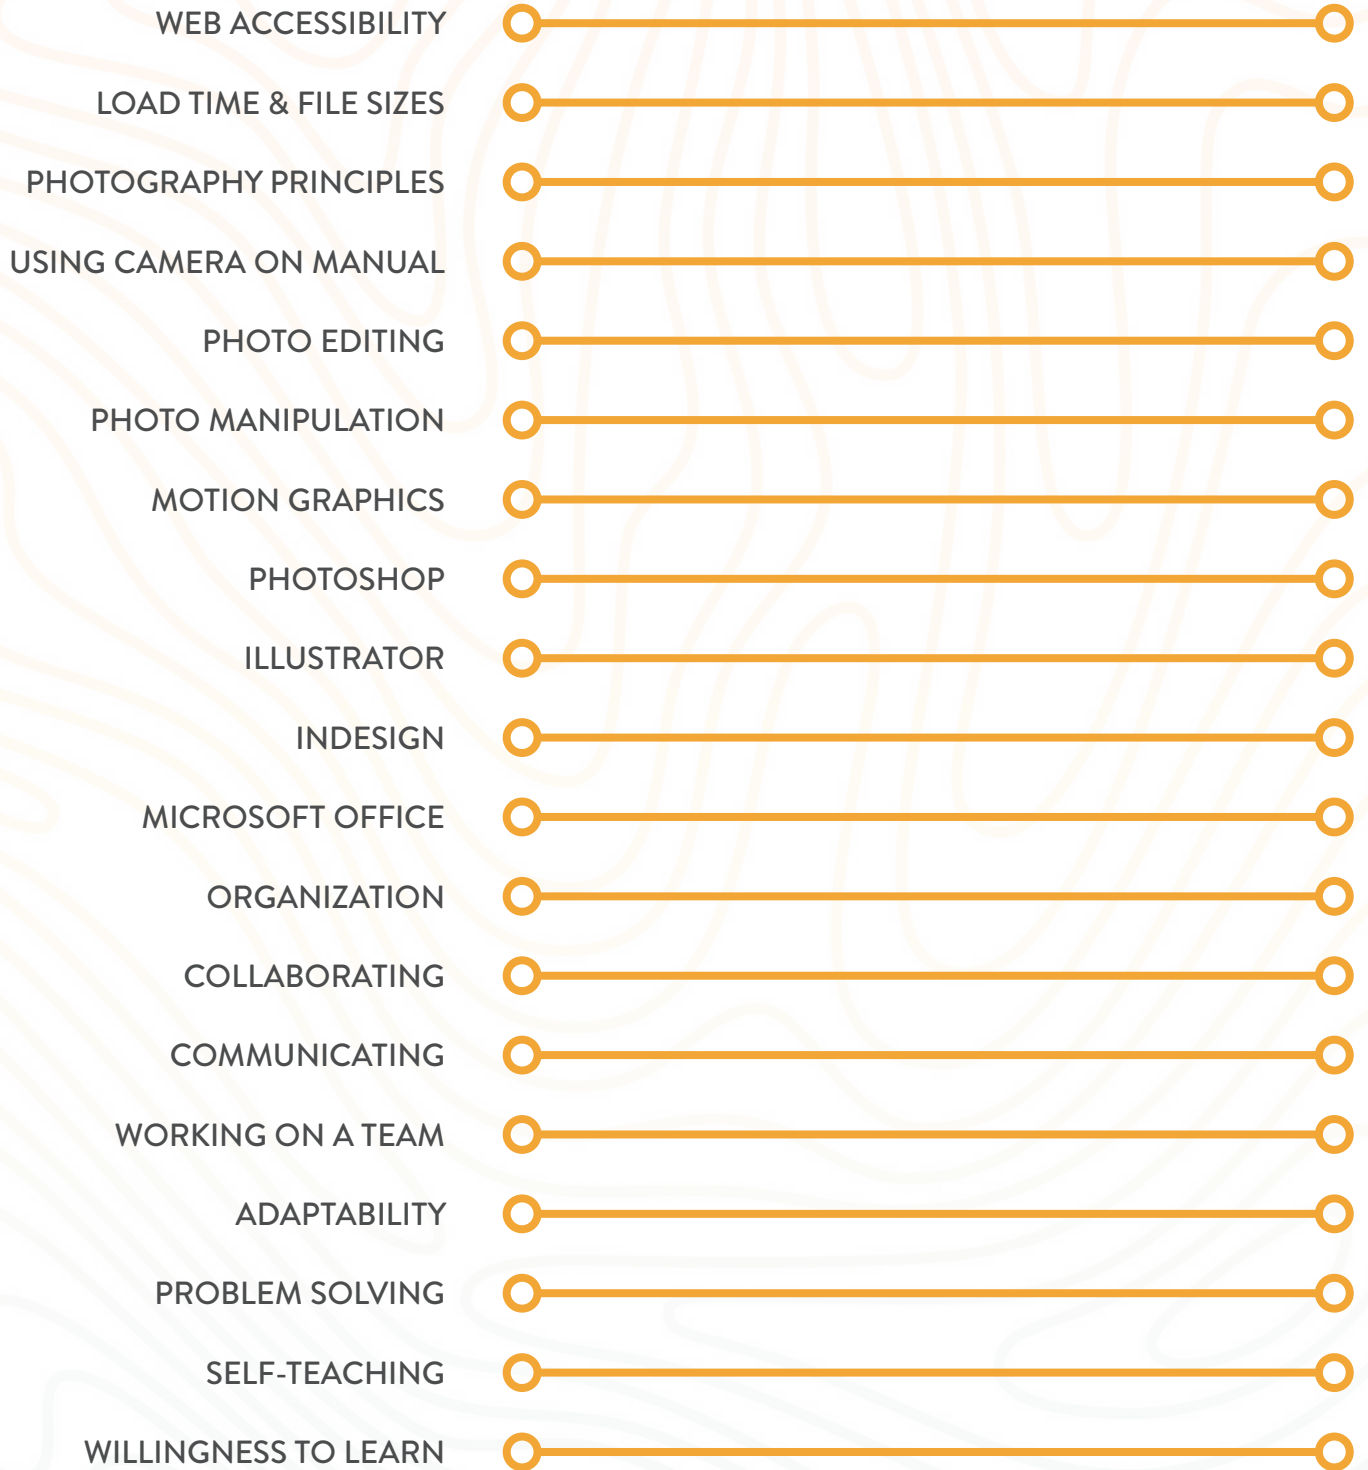

Okay, so it's more a of self-checklist than a quiz, but quiz sounds more fun. Below and on the next page, put an X on the line where you think your skill level is from Beginner ot Expert. This will give you a good idea of the things you need to work on.

Be honest - no one's going to see this except you! You're not doing yourself any favors by saying you're better at something than you actually are. And remember, there's always more to learn.
